PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with hands-on experience in software development and data-driven applications. Strong analytical and problem-solving skills with experience in debugging, testing, working with databases, and resolving technical issues. Experienced in Java, JavaScript, React, SQL, MySQL, Servlets, JSP, JDBC, and REST APIs through academic projects and software development internship experience. Demonstrates strong attention to detail, adaptability, effective communication, and a willingness to learn new processes and technologies. Interested in applying these skills in a quality-focused role involving investigation, process adherence, issue resolution, and continuous improvement.

SKILLS

Programming Languages: Java, JavaScript

Frontend: HTML, CSS, React

Backend: Java, Servlets, JDBC, REST APIs

Databases: MySQL, SQL

Core Subjects: OOPS, DBMS, DSA

PROJECTS

AI Travel Planner

Jul 2026

JavaScript, React, Firebase, REST APIs, Gemini API

- Built a full-stack-feel travel planning web app in React with Firebase Google Authentication, integrating multiple REST APIs to deliver live destination details, weather, and an interactive map with nearby attraction data.
- Engineered an AI-powered itinerary generator using the Gemini API, producing personalized day-by-day travel plans grounded in real destination context based on trip duration and traveler interests.
- Developed a multi-modal travel feature integrating real-time flight, train, and ship tracking, plus a geolocation-based private-route planner — all third-party API keys secured server-side.

Food Delivery Web Application

Apr 2026

Java (Servlets, JSP), MySQL, HTML, CSS

- Built a full-stack food delivery platform with email OTP-based registration, restaurant browsing, cart management, coupon discounts, multiple payment options, and order history.
- Implemented order confirmation emails via SMTP, wishlist, reviews, and a responsive UI with dark mode.

Hotel Booking and Management Portal

Apr 2026

Java (Servlets, JSP), MySQL, HTML, CSS

- Built a full-stack hotel management system with secure Admin and Customer modules, enabling room booking, check-in/check-out, payment processing, and booking cancellation.
- Developed an MVC architecture using Servlets, JSP, DAO, and JDBC with MySQL for efficient database operations, authentication, room management, and staff management.
- Implemented an interactive dashboard featuring room availability, booking history, payment records, invoice generation, and administrative analytics for streamlined hotel operations.

INTERNSHIP

Software Development Intern — Tap Academy, Bengaluru

Feb 2026 – Jul 2026

- Developed full-stack web applications using Java, Servlets, JSP, HTML, CSS, and MySQL.
- Implemented backend logic with JDBC and performed CRUD operations for dynamic applications.
- Debugged, tested, and optimized application performance while collaborating on end-to-end software development tasks.

EDUCATION

Malnad College of Engineering

BE in Computer Science and Engineering CGPA: 7.75

Jul 2023 – Jul 2026

Karnataka, India

Rajeev Polytechnic

Diploma in Computer Science CGPA: 9.55

Jul 2021 – Jun 2023

Karnataka, India
